# FACE YOUR FEARS vol. 1-5

## Introduction

### Dimensions 1-5 Corrective Mind Protocols for corrective thinking.

"Right and wrong" suggest it for happy eternal life. I said it for "right and wrong." Dominion cares for and protects life. Corrective mind protocols correct thinking. You find the truth. It is here, now, right in front of your face, and it is everything you are. Life and your God would not let you be without it. I said. What do you say? Only the truth will set you free?

Corrective mind documents reveal you as master, as they care for your thoughts, and support your words, so you can make your own decisions, in order to protect your self. Thought you already did? Are you making any of your own decisions? Now you will discover the truth about real life. But it is up to you to continue. Will you? Make informed decisions? You decide. How?

**Friend:** What are we thinking about?

**You:** FACE YOUR FEARS mini publications are success documents that automatically heal your brain as you read. With you at the helm of your own thinking to lead the world as our savior, you bring peace to all. Do you think I am joking?

**Me:** Read FACE YOUR FEARS vol. 1-5, and unlock your hidden unlimited power that only knows freedom, and find out what freedom really is. Already know?

# FACE YOUR FEARS

## Brief History

Emergency documents to aid in solving today's problems by applying immediate permanent solutions for eternal happiness. How? With your help of course, but are you willing to help *us* save the world?

Evolving towards world peace, education is our weapon that defeats all weapons. Life advances in reality, as death slips away. Results show, and reliable information has the power to make informed decisions, and freedom excercises that power by making real decisions. How do *you* decide?

FACE YOURS FEARS advances us as we evolve together, eye-to-eye, on the ground, solving problems by helping one another, and sharing what we have to give. Life did begin and history recorded it all. Your story is so important?

## READ BOOKS

Read books about any topic or subject you are afraid of. Reading books cannot hurt you. If you are afraid of spiders, read a spider book. Learn God's purpose for spiders?

## God does not exist.

God is also the first word in the previous sentence. God is a real word in our all our languages, yes or no?

Are you afraid of God?

You should be. God in The Holy Bible asks us to be afraid of God and only God and reserve judgment for God and only God. Don't take my word for it. Read it. Come on. The Holy Bible is everywhere. Will you find one today?

## F a m i l y

Dreaming of our family headquarters as they are conservative, but with a solid foundation, you can expand and grow right from your home, so as you earn the right of exploration when your parents feel you are responsible to venture out, to aid in healthy family and community development for the greater good. Good being right and healthy. Your contribution and cooperation are merited when you are granted to learn. Who are your teachers?

## F r i e n d s h i p

What is a friend to you? Who are you as a friend? What do expect as a friend? Do you have any friends? The birds and the bees have been rumored to bring messages of love and friendship. Don't believe me? Go ask them. Are you going to do it?

## Relationships

Strong relationships start by making your self known. Don't hide anything. Resume, background check, credit score, plus skills, achievements, and charity are all important to being likeable. And our interests are paths to others.

## C o m m u n i t i e s

You don't have to say, think, or do anything are our individual rights. Authority cannot exist without harm. Harmlessness thrives in today's world as we move onward towards peace by solving problems, not living with them. Health starts with everybody, and life is for all.

## SELF BRANDING

Self branding is today's tool for success. Tell everyone who you are until they know you. It may be easier to say you are learning about your self, than being a expert in your field.

## REACH OUT

Ever notice saying hello can help you feel better?

## SEX

Healthy sex is for marriage. Hiding your sex could lead to venereal diseases also known as sexually transmitted diseases.

## FEAR

Tobacco and products like cigarettes can be used as a medicine and have more benefits than side effects?

Fear is the number one and only cause of death?

Punishment leads to mental illness?

This I claim:

God will lead you through all fear. Trust your self and you will know God. You can and will do as great as I is how God really is.

I thought it. I said it. I did it. That is the proud human. What are you hiding? Don't be the last to find out, right?

# KIDS

With guns and bombs on our planet, should we be allowed to have kids? Are the kids getting the love and care they need? Do you let people tell kids what to do? Who are you? I live here too. Kids need our help, always! No touching please, unless it is a 911 emergency.

## Friends

God saved us. Jesus Christ showed us. I hope you find your...The Holy Spirit. God gave him to us. Faith and its investment will light the way is my experience and love will shine away the fears is what I have seen, but who am I?

### Death is a Friend?

Live or die is the world we live in and death knows how to die by definition, but can death show you how to protect your self from death?

## GRAVEYARD

There is a working graveyard, so unless you know better, you are going to die. How will you ever learn to live forever?

### Non-exist Now

Non-existence must be a vacation spot God created for his children. God never said the devil doesn't exist. Maybe God is the devil. Or the devil is like a computer program so God can keep the devil forever and use him to teach his kids right from wrong.

He will, right?

God: (Joking Sarcastically?) It was the devil.

*The fine print: You can accept Jesus Christ as your personal savior. Jesus Christ will never fail you.*

Placing your health first regards your lifestyle. Rest, exercise, diet, work, and learning are the 5 dimensions of healthy life that include the four cornerstones of food, clothing, shelter, and also happy medicines when necessary. Your health is so important to sustaining and supporting your family's health that its example in our reality we share as the standard for mental health is apparent at first glance. The fat man is fat. But what is he eating?

## READ BOOKS

Read books about any topic or subject you are afraid of. Reading books cannot hurt you. There are even audible books you can listen to. If you have any health concerns, you can get the facts by reading reputable\* sources. \*Reputable means willing to be questioned.

## God does not exist.

Investigate.

God doesn't want you to be afraid?

God asks you to be afraid God of only God in The Holy Bible, and it is because it is scary here is the reason, I think.

Are you afraid of God now?

GOD: (jokingly) Because God does not exist has God in the sentence?

## F a m i l y

If you really think about it, harmless is what we want our family to be in reality. Keeping our families from harm in today's world is an around the clock job. Reality free from illusion makes the fly swatter obsolete and the fly's purpose well known. Guns and bombs hide reality and exclaim authority is master. But whose authority? And is authority just an illusion that contribution and cooperation can dispel?

## F r i e n d s h i p

Dear God,

God you cannot handle it on your own and I cannot either.

Okay?

AMEN

## R e l a t i o n s h i p s

Knowing everyone in your community is the right way to live. It helps eliminate threat of harm and insane behaviors cure easily in the light. So, keeping people in the loop, by spreading the word helps keep everyone on their toes and in good cheer. Your eyes have hopefully witnessed my claims, so you can make use of their verdicts.

## C o m m u n i t i e s

Health is first priority to healthy living and our community should support with care and protection the healing of any sickness first and foremost before continuing any other learning or work.

## SELF BRANDING

What are you talking about? Who are you talking to? What are your hopes and dreams? Your answers could start or improve a successful business.

## REACH OUT

I live here too. How do you say hello and talk to the world?

## SEX

Healthy sex is for marriage.

## FEAR

The Holy Spirit: Being able to trust your self by upholding your agreements in a romantic relationship supports and strengthens the bonds of love through healthy example.

The Devil: That sounds nice until the veins of jealousy arise and scream foul play. How will you ever control your self? Discipline?

God: Take it easy and find the easy way out.

The Devil: How could you use such preposterous words? There is no easy way out.

The Holy Spirit: You know how! Hope, faith, and love also scream for a romance but does our intelligence allow for such wisdom to give us a chance to fall in love?

God: Easy. Take it easy and find the easy way in.

# KIDS

Kids need our help, always! No touching please, unless it is a 911 emergency. Touching children could lead to jail, but the kids may have the real story, so we never get in trouble again. Did you ever notice how kids know what is right without confusion when they are young? What kinds of seeds are you planting? What are the lessons that you are teaching? Everything you think say and do is a lesson you are presenting to us all is how God perceives?

## Friends

A friend doesn't think say or do anything even if that is all they do is think say and do. Who are your friends? Are they that good of friends?

### Death is a Friend?

Death is retired and just wants to play baseball. It could be true. Do you play baseball? Maybe it is time to learn. Death knows how everything died so far.

## GRAVEYARD

There is a working graveyard, so unless you know better, you are going to die. How will you ever learn to live forever? Graveyards will be the future site of the most beautiful gardens?

### Non-exist Now

Non-existence is a word that means existence does not exist. Sounds silly enough, right? But it is a real word now even if its meaning doesn't make sense at this time and if it did we may not exist to find out its true meaning. Try to erase the picture and there are about 7.8 billion people you barely know and if most of them non-existed right now would you even bother to notice or could you even notice?

It is live or die, not both, and with approximately 7.8 billion people that care for one another, and maybe without their knowledge, because they are too busy making ends meet that it is easy to fail to recognize that everything each one of us does effects everything in existence, and even though care, protection, and support are noticeable in today's world, it is live or die, not both, and you can live, but how?

## READ BOOKS

Read books about any topic or subject you are afraid of.

Reading books cannot hurt you.

There are even audible books you can listen to. The Holy Bible is a book about eternal life? Are there any other books out there on the subject of eternal life?

## God does not exist.

Why? What a question.

Don't ever stop asking why? Do you ever stop asking why?

God is a real word. He exists in that sense, but may be far greater than we could ever imagine and we may only have the ability to experience life, and nothing else.

Die God!

And then what?

God is showing us we don't exist because we hurt someone? No, right?

Know right!

## Family

Family makes the world go round. It is the foundation for life and healthy living. Those that leave their family suffer and die. That is the result the world shares with us, that you can see clearly by simply living in the world and observing us. You also see strong families coping with the atrocities of daily living by sticking together and using the best information to live healthy lives.

## Friendship

Healthy living consists of rest, diet, exercise, work, and play, while we learn about our world for proper growth and development in the present time to harness the ability to care for and protect our families forever.

## Relationships

Live or die? Your friends do not want to die. People that have given their lives to death are to be observed, not befriended. When they are ready to be a friend, they will change their mind from death to life. Until then be patient with them and continue to advance, so everyone has a chance to catch the wave of life that leads to freedom.

## Communities

Health is first priority to healthy living and our community should support with care and protection the healing of any sickness first and foremost before continuing any other learning or work. ...And liars don't get noticed, they get looked at.

## SELF BRANDING

Who are you? What do you do? What is okay? What do you like? What do you want out of life? Tell everyone. What is not okay? What don't you like? Everybody should know you and what you think, if you want to be successful and have your chance to be likeable.

## REACH OUT

Who do you love? Are they worth saving? How do you lend a helping hand?

## SEX

Sex, war, and drugs are the only real health problems. Sex is for marriage. Sex out of wedlock fosters diseases and mental illnesses. Their result is war and drug addiction according to our history. References?

## FEAR

The Holy Spirit: All there is is life. Death is an illusion of thinking that you are less than what created you. Life is eternal and infinite. Death says something else.

The Devil: Learn how not to die, while I figure out how to kill you?

God: Death is retired and just wants to play baseball. How long will he play?

The Devil: Without death I am FINISHED. What do I do now?

The Holy Spirit: Ask Jesus Christ for forgiveness?

Jesus Christ: I am here waiting, when you are ready. FACE YOUR FEARS vol. 3 p.1

Your life is over, right or wrong, and non-reality is not real, but a planet that kills, basically only knows death, but Jesus Christ can save you from it means most people still believe they have to die to go to heaven, but that is non-reality like everything else you do not do, like you are going to die, but you do not murder, but both are non-reality?

### NON-REALITY

Death is non-reality is what was just read? Sickness is unreal like attack and defense and a by-product of a mistake, as small as stubbing your toe, that everyone has made somehow to eventually excuse guns and bombs as necessary, because everyone must feel pain for feeling pain at all, until our "Mr. Tough Guy" attitude runs us away from ourselves to disillusionment, which too is non-reality, but non-reality got us there quickly and everyone must of thought there was something to it, because we all believe in sickness and death?

### READ BOOKS

Read books about any topic or subject you are afraid of to overcome fear? What are you afraid of?

### GOD DOES NOT EXIST

Carlos Castaneda, neo-tech, ACIM do. The Holy Bible does exist too. Who are your favorite authors? Who are your favorite teachers? Who are your friends, and do you want more? Talking about God may help you find people that believe the way you do. It may help you see danger as well.

### FAMILY

Included. I think everyone wants to be included, but only reality really exists. During the holidays everybody likes to be together, but nowadays drugs, rape, and war, which are non-realities keeps us apart, and the cause of it all is sex without marriage, I think as well. What a crime?

### FRIENDSHIP

Starting out you may think you know something about anything, but when you are willing to see the needs of others, you will see what you can do to help. Then are you willing to help or do you want the selfish gains that become apparent in a dying world?

### RELATIONSHIP

Power can destroy or heal the world, but life lives in freedom, not under your control. Unlimited and free knows romance and forever, so you can fall in love and get married. Self-care practice leads by example, and is a prerequisite to healthy relationships.

### COMMUNITY

Community standards grants privileges to those that support the strength of the people. Learning and workmanship guarantee you comfort even during tough times. Honest business hides nothing.

### SELF BRANDING

Everyone wants you, not somebody else. If you made bad mistakes tell everybody, until you can forgive yourself.

### REACHING OUT

You can and do do what you do. Do you like what you do? Do you want to help?

### SEX

The AIDS virus may only work right if everyone gets AIDS. Funny? I think God is more like that because there is AIDS and like this. If you get married, nobody minds if you have sex and make babies.

### FEAR

The Devil: I am going to be the devil.

GOD: You are the devil.

The Holy Spirit: Go with me to Heaven.

The Devil: I am the devil.

GOD: You are the devil.

The Devil: Yes I am the devil.

The Holy Spirit: Go with me to Heaven.

The Devil: But I am the devil.

GOD: Is that my innocent Son?

Jesus Christ: I am here waiting when you are ready.

The Devil: But I thought I was the devil.

God: Perfect cannot be imperfect.

The Holy Spirit: Do no wrong to heal Heaven as we go.

## KIDS

Nurturing kids asks questions like, "What do you want to do?" Growth and development is healthy. Ask kids for honest answers. No touching unless it is a 911 emergency or their harmless parents.

### FRIENDS

If you are a friend, do you need friends? If you are a friend, you can have friends? What is a friend?

#### DEATH IS A FRIEND?

A friend tells you what it knows? Death knows all the ways it has seen life die. If you ask death, how will I live, how will I die, what is the answer? Is there one?

### GRAVEYARD

Would you ever count the names of all the bodies left 6 feet underground? Do you know your plot? Where will you lay to rest? Beyond the graveyard is there still life or only life?

## NON-EXIST NOW

Non-reality could feel like a vacation in a world of death, but illegal drugs, promiscuous sex, and killing do not exist in reality, because only life is real. My speculation of course or someone else's reality in this world of death that sells vacations instead of gives you one tells me that life lives and death dies but non-existence is who we are because anyone ever got hurt. Now do you want to take a vacation while we clean up our mess by working together or will you please non-exist?

The fine print: Jesus Christ can save you. Jesus Christ will not fail us. Good luck.

...Taking you to the point in time when you threw your self away, you see the mistake you made and change your decision now to be the person you were meant to be then, and this change reclaims your youth by becoming your true self, and you do remember what you did instead of be you, but you really just got scared because you thought sickness and death were real, for that is all anyone ever taught you.

### **WRONG**

There is wrong and right in today's world, but everyone acts like they are confused to which one is which. There is the law and authorities to uphold the law, so you can learn right from wrong. Righteousness does make you happy naturally and results are seen everywhere that anyone chooses to be kind or polite or warm or considerate and the like. Society chooses the values for our civilization to support for every family's well being, including laws that protect and care for every individual. There is wrong, so be right to be healthy and happy. Know right!

### **READ BOOKS**

Read books about any topic or subject you are afraid of to overcome fear? What are you afraid of?

### **GOD DOES NOT EXIST**

The 10 commandments do exist and are natural laws that when followed naturally make you happy. You can find them in The Holy Bible and Dr. Frank R. Wallace from Neo-Tech Publishing explains them in their literature and Carlos Castaneda shows you how they work as he learns the ways of the Shamans of Ancient Mexico, which also help us see the writing is on the wall. You can find your answers. Hunt power?

### **FAMILY**

Family is powerful. It is the strength of our planet, not drugs, war, and rape. Family protects life. It cares for it as well. If your family is unhealthy it is easily noticed. You cannot hide from anyone and you will be revealed in time, so be prepared if you hurt your family or any family. How do I know?

### **FRIENDSHIP**

Meeting people can be difficult in a scary world. Family leads us to our friends by the lessons they teach. People are attractive and attract like minded individuals to this very date. Drugs, war, and rape have the power to destroy all relationships. Friendship finds friends?

### **RELATIONSHIP**

How do you view the world? Is your view accurate? How would you know? Society establishes right and wrong and our laws are always being updated for the greatest success of our entire civilization. Keep in touch with your world and learn its ways for success and health. What is right and wrong?

### **COMMUNITY**

Ladies and gentlemen are appealing to our character, but insanity clouds our vision and self-righteousness that doesn't include anyone, while it pretends to, bickers with the world until our temper tantrums subside for peace and reality and its freedoms?

### **SELF BRANDING**

Everyone wants you, not somebody else. If you made bad mistakes tell everybody, until you can forgive yourself.

### **REACHING OUT**

You can and do do what you do. Do you like what you do? Do you want to help? Helping helps and feels good.

### **SEX**

The AIDS virus may only work right if everyone gets AIDS. Funny? If you get married nobody minds if you have sex and make babies.

### **FEAR**

Sex without marriage is the cause of all problems?

People think more about catching sexually transmitted diseases then feeling the pleasure of sex when they hide their sex?

Child molesters are real.

There are guns and bombs.

Drugs do kill people.

Hiding anything about your self drives you insane?

Homosexuals are a natural danger alert?

### FRIENDS

If your friends smoke crack are they your friends? Or are they off the friendship clock until further notice and cared for like family without a hope? I think it is like that naturally and for good reason. CRACK KILLS! DEATH IS A FRIEND?

Star Wars Storm Troopers look quite appealing and attractive but the result is Darth Sidius. It is easy to decide for right when The Empire is recognized as wrong and unhealthy no matter how powerful. It is ugly and it hurts, but is all you will ever see?

### GRAVEYARD

### NON-EXIST NOW

Wrong is right and now we non-exist. Don't believe the hype. 911 is a phone call away. Take the government vacation and see how it is. You may like it or make it a better place. Who knows? You could become the leader in mental institution redevelopment during our fight for sanity. Don't be insane? You can do it. But what? What can you do? Nothing! You non-exist. Didn't you just read it? Until wrong is wrong get use to it. You are dead, at least, unless you know better. Right?

The fine print: Many believe if not all that Jesus Christ did save us, so he can save you when you are ready. Faith and trust are real. Jesus Christ will not fail us. Will you? Good luck.
